# Lab 0
Software Installation
Prof. Charan Bhaskar

Lab Work

- Download Visual Studio 2022, Community Version from
  https://visualstudio.microsoft.com/
- For Mac Computers: VmWare Fusion (Personal Use License), Windows 10, and Visual Studio 2022
- While installing through wizard, make sure you check "Desktop development with C++" in Workloads.

- Download Lab0Demo.zip from Canvas → Modules → Lab 0.
- Extract and open Lab0Demo.sln (solution file). It will be opened in Visual Studio.
- Run the code and check if your registers are getting changed.
